The technical English 2 Workbook is specifically designed to prepare students for the TOEFL, GRE, and AP exams. This workbook provides exercises in grammar usage with corresponding answer key to help provide insight into the correct response. The exercises are arranged in chapters by grammatical categories. And many of these chapters are divided into subcategories according to content type (Nouns; Verbs; Adjectives; Adverbs; Prepositions). Introduction: The Tests Of English as a Foreign Language (TOEFL) is an international standard test that measures how well someone can use and understand English in an academic setting outside of their home country. It is often required for entry into American universities. The Graduate Record Examination (GRE) is a commonly required test for students applying to graduate school. It is necessary to have a very specific skill set to perform well on this test, one of which being the ability to understand and use complex vocabulary. The Scholastic Aptitude Test, or SAT, is another exam used for entry into universities. However, unlike the TOEFL and GRE tests, it does not focus on how one uses vocabulary, but rather on how well one can apply knowledge acquired in school. Technical English 2 Workbook with Key is designed to help students prepare for multiple exams that all have one common trait: they require extensive knowledge of technical vocabulary. Technical vocabulary is commonly needed for the TOEFL, GRE, and SAT exams. The technical English 2 Workbook with Key is designed specifically to help students prepare for these exams by providing exercises in grammar usage with corresponding answer key. Technical vocabulary is recognized as the most difficult part of the test on all three of these exams. Technical vocabulary can be defined as words that are not used in common conversation (i.e., they are not part of the spoken language). The technical English 2 Workbook with Key provides exercises in grammar usage with corresponding answer key to help provide insight into the correct response. The exercises are arranged in chapters by grammatical categories. And many of these chapters are divided into subcategories according to content type. This is a comprehensive workbook with a focus on technical vocabulary within different content areas, such as computers and business. This book is designed to prepare students for the TOEFL, GRE, and AP exams by providing exercises in grammar usage with corresponding answer key. The exercises are arranged in chapters by grammatical categories. And many of these chapters are divided into subcategories according to content type, such as computers or business. This book can be used for additional practice outside of class with the material covered in class or as practice for one of the above-mentioned tests.
